

# ***DOWN THE DRAIN OR SAFELY CONTAINED?***

*Put Unwanted Medicine in Its Place.*

**DRUG BUSTER®**

Instant, effective, eco-friendly drug disposal system

# DRUG DISPOSAL AS SAFE AND EASY AS 1-2-3.

Flushing unwanted medicine down the toilet isn't environmentally responsible. Mixing drugs in with waste isn't safe. Having highly skilled staff crush pills isn't cost effective. The DRUG BUSTER medication disposal system deactivates and contains the active chemicals in unused OTC and prescription medications, preventing misuse, abuse and contamination.

- 1** Simply place unwanted drugs—pills, liquids, narcotics and transdermal patches—into the bottle.
- 2** Invert and swish the bottle twice.
- 3** After 2 hours, discard in regular trash—not hazmat—or when full.

## Uses Eco-Friendly Technology.

DRUG BUSTER's patented solution dissolves and neutralizes the active ingredients in non-hazardous medications. This irreversible process begins immediately, taking just 15 minutes to break down the pharmaceuticals into an environmentally inert slurry that, if consumed, would induce vomiting. The container can be safely stored and used until full, at which time it can be put in the garbage.

## Exceeds Agency Guidelines.

The DRUG BUSTER drug disposal system exceeds FDA, CHAP and Joint Commission guidelines for drug disposal,\* helping to:

- » Minimize the potential for negative environmental impacts,
- » Reduce the amount of medication available for potential abuse or accidental ingestion, and
- » Prevent inadvertent use of expired drugs.

Item No.	Description	Pkg
OTC3200	DRUG BUSTER 64-oz.	4/cs
OTC3210	DRUG BUSTER 16-oz.	12/cs
OTC3200H	DRUG BUSTER 64-oz.	Each
OTC3210H	DRUG BUSTER 16-oz.	Each

## BENEFITS

- » **Minimizes the potential for accidental poisoning or abuse.** Patented solution makes medications unusable and unrecoverable within minutes.
- » **Protects the environment.** Safely deactivates pharmaceuticals, making them safe for disposal in landfills.
- » **Frees up skilled staff.** The fast and convenient process offers nurses more time to care for patients or tend to other responsibilities.
- » **Streamlines drug disposal** with a cost-effective system for complying with FDA, CHAP and Joint Commission guidelines for drug disposal.
- » **Accepts various forms of non-hazardous medications.\*\*** Quickly and effectively destroys pills, liquids, controlled substances and transdermal patches.
