

Agency: Florida Department of Environmental Protection

Title: GIS Intern

Duration: May 11 – July 31, 2020

Location: Tallahassee

Compensation: Unpaid

Apply by: March 1, 2020

Description

The Florida Department of Environmental Protection (FDEP) is seeking two interns for the Summer 2020 semester. The internship positions will be assisting the GIS Section of the Office of Technology and Information Services (OTIS-GIS). This program offers practical, hands-on experience working in a dynamic and collaborative Enterprise GIS environment. Over the course of 12 weeks, interns will be exposed to a wide variety of GIS projects and will work closely with divisions within DEP to assist with their projects. Interns will learn various GIS workflows and applications, become familiar with the Esri software suite, and develop professional communication skills. Responsibilities may include digitizing features in ArcGIS Pro, creating and maintaining ArcGIS Online content, adding DEP GIS data to Community Maps, writing Python scripts for geoprocessing workflows, and completing trainings on My Esri.

Requirements

- Currently a degree-seeking student enrolled in a college, state/community college or university
- Completed at least sophomore year of academic courses
- Pursuing a Bachelor's or Master's degree; preference will be given to students pursuing Geography or GIS degrees
- Minimum of 3.0 grade point average
- Able to work at least 10 hours a week during the Monday-Friday 8 a.m. – 5 p.m. work week
- Able to pass a background check upon hiring

Application checklist

- Complete the attached application – **note the required documentation** listed under the signature box
- Submit application and the required documentation to Mary.G.McClellan@FloridaDEP.gov (CC: Lorrie.Keillor@FloridaDEP.gov) with the title "OTIS-GIS Internship Application"
