

STEARNS WEAVER MILLER

GIS Analyst

Stearns Weaver Miller is at the forefront in providing planning and Geographic Information System (GIS) services to meet client needs efficiently. Using the Firm's state of the art technology, our cutting edge approach integrates legal and policy analysis with advanced technical capabilities. From site selection through entitlement and post-construction management, our unique team approach assists our clients to evaluate their options fully, make informed decisions, and minimize risk. Our Tallahassee office is seeking a talented, self-driven GIS Analyst with a strong understanding of GIS concepts and data management to join our team. The GIS Analyst will work onsite under the direction of the GIS Director. The ideal candidate is a problem-solver that thrives while working in a fast-paced team setting.

Responsibilities

- Data analysis, management, conversion, and modeling
- Create complex cartographic map products
- Support and develop webmapping applications
- Maintain and update spatial databases and imagery libraries
- Non-spatial data acquisition and research

The ideal candidate will possess:

- GIS work experience in Planning, Zoning, Permitting, and/or Real Estate
- Strong aptitude for defining data needs, project requirements, and methodology for required outputs in the most efficient and timely manner
- Familiarity with data sources from local, state, and federal agencies
- Experience using advanced ArcGIS editing tools
- Ability to "think out of the box" when challenged with unconventional data requirements
- Experience in 3-D modeling, Transit/Network analysis, and statistics
- Ability to identify data quality issues and work to improve data accuracy
- Knowledge of ArcGIS Pro for future migration from desktop
- Strong technical and computer skills
- Ability to manage time and prioritize various assignments/projects simultaneously
- Ability to manipulate spatial data, imagery, LiDAR, and other common GIS formats
- Positive attitude and an impressive work ethic
- Knowledge of Web Services, a plus

Qualifications / Education:

- Bachelor's degree in Geography, Planning, GIS or 3-5 years equivalent combination of training and experience which provides the required knowledge, skills and abilities.
- Proficiency with the ArcGIS 10.x Desktop Software Suite, Open Source GIS, Excel, and ArcGIS online
- Ability to work independently and in a team environment
- Ability to assist IT/Multimedia Department when necessary
- Strict adherence to data storage and file structure standards
- Communicate effectively both verbally and in writing
- Able to work extended hours and weekends, when needed
- Available to travel, when needed
- Qualified candidate must be a U.S. citizen or a U.S. permanent resident
