\*The Product Stewardship Institute (PSI) is facilitating the sixth meeting of a national dialogue aimed at reducing the generation of leftover paint, while increasing reuse and recycling opportunities. With the support of dialogue participants like FDEP, a Memorandum of Understanding (MOU) was developed to work on projects that will become the basis for developing a nationally coordinated paint management system. Alachua, Broward, Highlands, and Leon counties endorsed the MOU. County HHW programs are encouraged to attend and observe this dialogue in process.
