

Florida Department of Environmental Protection

RULE CHANGE NOTIFICATION

The Florida Department of Environmental Protection (DEP) provides this NOTICE of changes in Federal and State requirements for regulated waste activities. If you generate or transport hazardous waste, or operate a hazardous waste treatment/storage/disposal facility, there are two new requirements for you to comply with:

Requirement 1

The State of Florida adopted new Federal regulations for the Uniform Hazardous Waste Manifest, EPA Form 8700-22. The regulations are in Florida Administrative Code Rule 62-730.160. Beginning September 5, 2006, facilities generating hazardous waste will be required to use the new hazardous waste manifest form. Information on the new manifest form is located on this web site:

<http://www.dep.state.fl.us/waste/categories/hazardous/pages/EPAMANIFEST.htm>

Requirement 2

Effective January 29, 2006, the State of Florida adopted regulations, Florida Administrative Code Rule 62-730.150(2)(a) & (b), concerning hazardous waste generation. Facilities generating hazardous waste are required to complete a new Florida Notification of Regulated Waste Activity Form 8700-12FL. FACILITIES MUST RE-NOTIFY the Department of changes in their status. Typical changes in status include:

- changes in the facility name
- changes in facility location or mailing address
- changes in waste generation rate
- changes in business form or type
- changes in ownership or management control of the facility or its operations
- changes in ownership of the real property
- changes in facility contact person
- changes in type of regulated waste activity
- notification if business is closing or going out of business
- tax default or petition for bankruptcy protection.

For Florida Notification of Regulated Waste Activity Form 8700-12FL Visit:
