- **Recycling waste** keeps trash bills down and guests happy
- **Energy management** systems and low energy fixtures cut power bills dramatically!
- **Safer, less toxic** cleaners and chemicals helps indoor air quality and reduces human exposures.
- **High efficiency** water fixtures save water and money.
- **Native landscaping** requires less maintenance and water.
- **Help ensure a sustainable future** for the environment and for the State's \$50 Billion dollar tourism industry.
- **Ecotourism** is considered the fastest growing market in the tourism industry. **SO GO GREEN!!**
