

1ST ANNUAL POLLUTION PREVENTION AWARDS

Applicant Information

Applicant (Facility Name):

Facility Address or Location:

Contact Name and Title:

Contact Address and Phone #:

Description of Business/Agency Type:

Website:

Contact Email:

Number of Employees:

FLPPR Member since:

Current compliance with state and local environmental rules and regulations is required (past 12 months). Please note that previous violations will not preclude your facility from consideration. However, failure to disclose any previous enforcement actions will result in disqualification. Please describe briefly the nature of the violation, agency involved, and resolution.

Environmental Affiliations

Previous awards or recognition, certifications (i.e. LEED, EnergyStar®, ISO, memberships, trade organizations).

1ST ANNUAL POLLUTION PREVENTION AWARDS PAGE 2

Pollution Prevention

Pollution Prevention (P2) is reducing or eliminating waste at the source by modifying production processes, promoting the use of non-toxic or less toxic substances, implementing conservation techniques, and re-using materials rather than putting them into the waste stream. Please describe how your facility practices pollution prevention. For example: describe your efforts to reduce water consumption; increase energy efficiency; reduce generation of solid or hazardous waste, air emissions, or wastewater discharges. How do your purchasing and communication practices support your efforts. *Finalists may be asked to provide supporting data or documentation.*

Innovation

Describe innovative actions your facility has taken to improve environmental performance and how those actions vary from the industry standard. (i.e. experimental, unique, first time applied to the industry).

Summary

Briefly summarize why your facility should be recognized and what this award would mean to you and your business. Feel free to include any additional information you think should be taken into consideration when reviewing your application.

Certification

To the best of my knowledge, my facility is currently operated in compliance with all applicable federal, state, and local environmental rules and regulations. No false or misleading information is presented in this application.
