**RE: Alachua County's Small Quantity Generator (SQG) Assessment and Verification Report Year 2012 – 2013**

Dear Mr. Galka:

The purpose of this letter is to summarize the activities of the Alachua County Environmental Protection Department (ACEPD) in the SQG Program during the 2012 – 2013 reporting year. This report is the fourth one of the current five year cycle.

The current assessment roll contains 989 facilities and it is continuously updated through phone interviews, phone book research, occupational license data and inspections. During the 2012 – 2013 reporting year, ACEPD verified 396 (40%) facilities.

All verifications were generated through on-site inspections. All the verification data has been entered in the CHAZ-SQG online database. Additionally, all facilities in the assessment roll were mailed notification forms outlining their responsibilities

If you have any questions regarding this letter please contact me at (352) 264-6806

Sincerely,

Agustin Olmos, P.E.  
Water Resources Supervisor  
AO/ao
